

Where did the dinosaurs go?

Year 1

<u>History</u>			<u>Geography</u>		<u>English</u>		<u>Science</u>	
<p>Dinosaurs were lizard-like creatures that lived on Earth about 66 million years ago.</p> <p>Dinosaurs are now extinct but no one knows for sure how they died.</p> <p>Mary Anning was a palaeontologist. She discovered a complete skeleton of a dinosaur.</p>			<p>The Earth is made up of seven Continents.</p> <p>The five oceans have different animals that live in them.</p> <p>The conditions in the five oceans vary and that impacts the environment around it.</p>		<p>A non-chronological report is a text that is not written in time order.</p> <p>A narrative is a piece of writing that focuses on telling a story. It's a story with a plot, characters, structure, setting, and theme.</p>		<p>A plant has different parts that all need to be nourished to help it grow.</p> <p>The flower contains the blossom of a plant.</p> <p>A leaf is the flat, green part of a plant attached to the stem.</p> <p>The root grows down into the earth to get the nutrients.</p>	
Dinosaur	Palaeontologist	Extinct	Continent	Ocean	Non-chronological	Narrative	Blossom	Nutrients

<p>Diet is the food we eat. A healthy diet must include a range of foods from the balanced diet food plate.</p> <p>Dairy products come from milk.</p> <p>Sugar comes from the sugar cane plant.</p>			<p>Pitch is high and low sounds. We add pitch to the pulse and rhythm when we sing and play an instrument.</p> <p>Pulse is a steady rhythm like a heartbeat or a ticking clock.</p>		<p>An algorithm is a sequence of steps, instructions or rules that is used to perform a specific task.</p> <p>Mistakes are called bugs and finding and fixing them is called debugging.</p>		<p>An observational drawing is where you draw something right in front of you.</p> <p>A sketch is a quick way of demonstrating an idea or to capture what the artist sees.</p> <p>The colour spectrum shows the ranges and shades of colour that we can see.</p>	
Balanced	Diet		Pitch	Pulse	Algorithm	Bugs	Observation	Sketches
