

Who were the greatest builders? - Summer 2 Year 3

History

Most Ancient Egyptian pyramids were built as tombs for pharaohs (rulers of Ancient Egypt) and their families. To date, over 130 pyramids have been discovered in Egypt.

The Romans didn't spend all their time fighting in battles— they were amazing architects and engineers too! They built roads and walls, which are things we now take for granted.

The Maya people are remembered for amazing creations, like their spectacular buildings and beautiful objects made from jade, a rare and valuable material. It is thought that the Mayans invented the number 'zero.'
